**Village Sidewalk Grant Information and Rules:**

The Village of Freeville offers a \$500 matching grant to residents who repair or replace their sidewalks in the Village provided they meet the following rules:

- The sidewalk must be designated as a public sidewalk within the sidewalk law.
- The sidewalk must be concrete and of the width, length, grade, and have expansion gaps that are in line with the current village sidewalk code.
- The work must already have been completed in order to apply for the grant, and a paid receipt for the work must be presented.
- Home owners are able to do the work themselves, however they would only be eligible for the matching grant to be applied to materials (not labor). A paid receipt for the materials would need to be presented.
- The first day to apply for the grant is June 1st . This is the first day of the fiscal year.
- Any application(s) received between monthly trustee meetings will be presented at the next meetings and approved or denied at that time. A check for the approved amount will be sent with the following month's bill payments.
- This grant is on a first come first serve basis. An application will be denied if the budgeted grant funds have been spent in the current fiscal year.
- You have exactly one year from the time the work is completed to apply for the grant.
- This is a matching grant, the homeowner is responsible for one half of the project cost.
- The maximum grant award is \$500. If a resident's sidewalk bill is over \$1000, they cannot receive more than \$500 from the grant (i.e. if the project cost is \$800, the max amount of the grant will be \$400; if the project cost is \$2000, the max amount of the grant will be \$500).
