NO TIME FOR DEATH

Shirley Maxwell has gathered the media together to announce that her company, Wonder Labs, is back on the map with the unveiling of an incredible new invention was invented by lab assistant Nick Van Castle. Or was it invented by has-been inventor Nathan Brandmark? Or was it stolen by Nathan who used it to go back in time and claim he invented it? Or the other way around? Whatever happened, one thing's for sure: the clock is ticking down on someone.
